24.156.2701 DEFINITIONS (1) For purposes of the rules set forth in this subchapter, the following definitions apply:

(a) "Clinical experience" means supervised instruction, observation, or practice in a patient care setting as part of a course curriculum.

(b) "Clinical preceptor" means an individual licensed to a licensure level greater than the student, who is responsible for supervising and teaching the student in a clinical setting, under the supervision of the medical director or lead instructor.

(f) "Medical director" means a physician or physician assistant who holds a current unrestricted Montana license and is professionally and legally responsible for training, providing medical direction, and oversight of licensed ECPs under the medical director's supervision.

(g) "Montana ECP Practice Guidelines" means the written guidelines developed, approved, and distributed by the board, that provide guidance to medical directors and ECPs licensed to practice at all levels.

(h) "Offline medical direction" means general medical oversight and supervision for an emergency medical service or an ECP, including, but not limited to, review of patient care techniques, emergency medical service procedures, and quality of care.
